

LOCAL 25

**Communication, Energy and Paperworkers Union of Canada
25 CECIL ST.
TORONTO, ONTARIO
M5T 1N1**

Strike/Lockout Registration.

Strike/Lockout Registration is a something the Local must do in case there is a strike or lockout. The rules and regulations that govern a Strike or Lockout must be followed in order for the Local to access the Defence Fund.

Any members that want to be paid to picket (in the event of a strike or lockout) must register with the Local in order to receive Defense Fund payments (strike pay).

This is only a precautionary measure and would ask that you register with the Local in order that we can forward the information to the National.

Picket sheets have been sent out to members of Local 25. This does not mean we are going on strike, it just means that the Local is preparing its members for any possibility. This is a precautionary step incase the company locks us out which the have done in the past. As far as it stands right now the bargaining committee is still in conciliation with the company. Talks will continue next week.
