

Unifor Local 25

VSP UPDATE

On Monday workers received an email from the company with a follow up the information regarding a VSP was fraudulent and the company is investigating. When the Local receives further updates we shall share with you.

Here is the update direct from the Bell Craft Bargaining Committee:

TO: BELL CANADA CRAFT & SERVICES MEMBERS

Greetings,

Sisters and Brothers,

This morning, a letter went out to all Bell Craft Unifor members from Bernard Leduc offering a retirement incentive to long tenured employees.

Unifor is told by the company that this went out in error. For several days now the union has been trying to arrange a meeting with senior management of Bell Canada to try to discuss the rumours of a VSP. We have yet to be able to secure a date for this meeting.

Your union remains committed to a balanced approach if and when discussions of a VSP take place with the company and your bargaining committee.

In Solidarity,

Bell Craft & Services Bargaining Committee
